

**DELIGHT**  
**By: The Hedgerow Folk**

**Verse 1**

**D**

Let my heart beat with the thrill of hope

**G .... D**

I've been scared of standing still too long

**Verse 2**

Let my wayward soul fall back in love

Let my mind be still and quiet enough

To hear you when you call

**Chorus**

**G**

I've been trying, to take delight in

**Bm**

What I know is, only an idol

**G**

And I keep finding (But they're all liars)

**D**

That they don't love me like you do

**Verse 2**

Look how you've placed these visions in the heart of every man

But while I wait, eternity it burns in me so bad

Let me feel something again

**CHORUS**

**Bridge**

**D**

In the state I'm in, You know how much I want

**A**

Your glory just to show up, Jesus, at my beck and call

**G**

**D**

And drive away this hunger in my bones

Give me wind or give me fire, shake the ground under my feet

You know every last desire, Lord, that burns inside of me

But you take me so much higher than the outer edges of my wildest dreams

So I'm calling on you healer, come and satisfy my soul

I know you love it when you hear me say I can't do this alone

And you take my weary heart and you offer me your own

**Verse 3**

**D**

When my heart's true delight, stands in front of me

**A**

Maybe then I'll wrap my head around this wild mystery

**G**

**D**

That all I ever wanted is to know that You delight in me
